PRODUCT APPLICATION (cont.)

DIRECTIONS

Tile & Stone Cleaner quarts and gallons contain a concentrated solution that requires dilution. To remove difficult stains such as oil and grease, mix one part Tile & Stone Cleaner with 3 parts hot water (cold water can be used but cleaning action will be reduced). For general cleaning, mix one cup Tile & Stone Cleaner with 3 gallons hot water. Apply Tile & Stone Cleaner with a clean mop and allow the solution to stand for 10 minutes while agitating periodically with the appropriate scrub brush. **DO NOT** allow solution to dry on the surface. Rinse the surface thoroughly with hot water and allow to dry. Difficult stains may require a second application.

For deep cleaning, consider Miracle Heavy Duty Cleaner (Acid Substitute).
